

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 20, 1998 LB 1175

another bill that will be addressed in the unification bill. And so if there's a concern of some bill that they thought we didn't include in this, we really did. Any senator that talked to us about something that did look technical to us, we did recognize that. And so I really don't know where that's coming from other to tell you that's simply not the case and that I again hope we can get to a vote quickly and ask you not to refer it back to the committee and that we can proceed with the division I put up on the desk and explain each one of the divisions to you. And as I said, at the end of that time I think you'll see that this truly is technical and all but one section noncontroversial. Thank you.

SPEAKER KRISTENSEN: Senator Suttle.

SENATOR SUTTLE: Thank you, Mr. President. Oh, for consent calendar. Boy, it would really be nice if we could have had a consent calendar this session. But Senator Chambers says he's not going to let us have a consent calendar this session. And now he says he's not going to let us have noncontroversial bills attached to a committee bill. It's very difficult to know how we can get the work done in the short time we have. I'm concerned about the \$125 million to special ed in this bill. I'm concerned about the technical things that need to be done in this bill. And if we were given the opportunity to have a consent calendar, we could have gotten these done on a one-to-one basis on each bill and its merits and we could get on with the business at hand. I'm sorry we've taken nearly the entire morning this morning discussing this point. I wish we could get to the bill. You could be assured, you certainly have had time in the time we've been talking about this to read the committee amendments, get your questions ready for Senator Bohlke or for any of us on the Education Committee, and I would encourage you to do that and hope that you will not support Senator Chambers' motion to send it back to committee. Thank you, Mr. President.

SPEAKER KRISTENSEN: Senator Robak.

SENATOR ROBAK: Thank you, Mr. Speaker, members of the body. I think I've had my light on about five times and I'll press it off at least that many times and pressed it back on again. I
